

Friday, October 15th & 22nd

Schramm Education Center Fall Break Programs...

These special programs are included at no additional charge with your admission.

\$10 Adults, \$7 youth (4-12), \$7 Seniors, 3 and under free

10:00

Reptiles! Meet an animal ambassador and learn about habitat and adaptations of Nebraska reptiles. Meet in the education center lobby.

Fishing This is beginner fishing: bait a hook, cast a line & catch a fish. Program is weather-permitting and designed for youth ages 5 through 15 who are new to fishing. We will meet at the flag poles in front of the center and walk to the pond together.

11:00

Bats A special bat art activity will be available in the Maker Space area. Naturalists will visit the Maker Space to share about Nebraska's bats: myths, adaptations, habitats and more!

Fishing This is beginner fishing: bait a hook, cast a line & catch a fish. Program is weather-permitting and designed for youth ages 5 through 15 who are new to fishing. We will meet at the flag poles in front of the center and walk to the pond together.

12:00

Picnic Around the Park. In addition to picnic tables, there are plenty of spaces to spread out a blanket and either soak up the sun or relax in the shade. Bring your own picnic basket, water bottles, snacks or whatever suits your picnicking style.

1:00

Bats A special bat art activity will be available in the Maker Space area. Naturalists will visit the Maker Space to share about Nebraska's bats: myths, adaptations, habitats and more!

Sling Shots Try out this game of skill! Use a sling shot to test your precision and accuracy. Program is weather-permitting and will meet at the flag poles in front of the center.

2:00

Reptiles! Meet an animal ambassador and learn about habitat and adaptations of Nebraska reptiles. Meet in the education center lobby.

Sling Shots Try out this game of skill! Use a sling shot to test your precision and accuracy. Program is weather-permitting and will meet at the flag poles in front of the center.

3:00

Backyard Birds Learn about how you can create a birding area in your own backyard. We'll explore types of feeders, water sources, which seeds will attract which birds and birds that are common winter visitors. Meet in the education center birding area.

Sling Shots Try out this game of skill! Use a sling shot to test your precision and accuracy. Program is weather-permitting and will meet at the flag poles in front of the center.

4:00

Drawing Birds Learn about the benefits of starting a nature journal and then practice a journal page by learning how to draw a bird. Meet in the education center lobby.

Bats A special bat art activity will be available in the Maker Space area. Naturalists will visit the Maker Space to share about Nebraska's bats: myths, adaptations, habitats and more!

EACH PROGRAM IS SCHEDULED TO LAST APPROXIMATELY 30-45 MINUTES

Schramm Education Center
